

**The More The Merrier!**

Right here at the P&Q Shop you'll see style after style and pattern after pattern in all-wool Dependable Trousers at \$2-and-\$3

The one thing, besides fit, that a man wants in a pair of Trousers, is service. P&Q pants are known to wear "till the cows come home." Which all goes to show that we, as manufacturers, know how to buy wear-resisting wools. And because we manufacture what we sell, our prices naturally are lower.

It's a good idea to have an extra pair of pants on hand. Save a dollar by buying here. Every size and pretty pattern in flannel, serge, wool or worsted.

#### THE FEARLESS ARMY MULE.

The fact that a mule is stubborn may lessen his value to the average user—but the soldier is inclined to value this trait. The mule is being raised above the horse for actual use under fire on the battlefields of Europe and is much used by the artillery. An untrained horse, being nervous and high-strung, is likely to dash about madly under fire, but the mule stubbornly holds his place regardless of the din. The British are now planning to mount a part of their cavalry on American mules. A favorite story of the British artillery is told of the artillerymen who tried to retreat with their gun under a warm attack. The gun team of mules stubbornly refused to budge so, in desperation, the gunners returned to the gun and succeeded in beating back the attack. They were warmly commended for their valor—but admitted that the praise was properly due the mules—The American Boy.

#### BIRDS AS SENTRIES.

Birds have become useful in Europe as sentries to warn men of the approach of the enemy before the host-

ile force is perceptible to the human eye. The French have found that parrots are acutely sensitive to the presence of aircraft, and therefore they have stationed a number of these birds on the top of the Eiffel Tower in Paris in order to warn the sentries of the approach of German Taubes. Before the craft is visible to the human eye, the birds bristle with excitement and then begin to screech. Their acuteness is due not to their eyesight, as one might suppose, but to an unusual acuteness of hearing which enables them thus to give a valuable warning.

The service is not restricted to caged birds, however, or even to those of the land. At sea the gulls are almost as great service, for they are quick to betray the presence of any submarine which rises to the surface. As soon as the periscope appears above the water the gulls rise from the water in flocks, circling around it and calling shrilly, thus indicating its whereabouts to the lookout of any ship which happens to be in that vicinity.—The American Boy.

## BRIDGEPORT AS IT WAS

100-50-20-YEARS AGO

(Taken from the Files of The Evening Farmer)

### ONE HUNDRED YEARS AGO.

**CURE FOR THE DYSENTERY.**  
(From the True American.)  
Trenton, July 18th, 1815.

Mr. Wilson—You may possibly consider a great favor upon many of your readers by inserting the following RECIPE in your paper, for the cure of dysentery. I am aware that nostrums thus made public, are generally, and often justly disregarded; and it is not improbable that this may meet with the same fate. But those who, through self-conceit, or professional vanity, neglect to hear the testimony of innumerable facts, will probably find the discipline of a disease to be salutary. It were to be desired, however, that children may not suffer by the obstinate prejudices of parents and masters.

**RECIPE.**  
Take 1 ounce of Rhubarb, 2 drachms of English Saffron, 2 or 1 and 1-2 drachms of Cardimoneese, according to the strength, 1 large Nutmeg.  
Bruise them all together, and put them in a bottle containing one pint of good French brandy—put the bottle in a pot of cold water—Hang the pot over a moderate fire, and suffer the water to become and regularly to continue quite hot; but not to boil—after remaining in this situation about 12 hours, it will be fit for use—During this process a cork must be set loosely in the bottle—A black glass bottle is best, as it is less liable to break by heat or fermentation.

The best time to take it is in the evening just before going to bed. The quantity of doses cannot be given precisely, but must vary according to the constitution of habit of the patient. The following doses will, however, be found generally useful.  
About one tea-spoonful may be given to a child from one to three years old.

About two tea-spoonfuls may be given to a child from three to six years old.

About three tea-spoonfuls for children from 6 to 12 years old.

About a table-spoonful for grown persons.

This medicine was first prescribed by an aged and respectable physician of Philadelphia with great success—One pint of it lately arrested the fatal progress of the dysentery among the soldiers stationed at the Lazaretto, near the city, and although it has been known in Trenton but about two or three weeks, it has already secured very happy instances of success. It is unnecessary to relate particulars.

### FIFTY YEARS AGO.

**MORE MONEY WANTED.**  
The Selectmen of this town not having funds sufficient to defray the current expenses of running the town machine, have very properly called a meeting of the legal voters to obtain authority to borrow money for that purpose—and also to transact other business. The meeting is to be held Saturday afternoon at 3 o'clock.

### TELEGRAPH NEW YORK TO BOSTON.

The "Insulated Line" of Telegraph which is to run from Washington through New York to Boston, has four wires strung through the latter city, all complete, except a few connecting river cables, one of which, at Washington bridge, over the Housatonic River, is being laid today. When these cables are down the company will be ready to transact business between New York and Boston. About 80 miles of the line is completed from New York towards Washington—a cable is to be laid across the Hudson River. The line is built entirely upon main turnpikes. We understand that it is the intention of the managers to open an office for business in this city as soon as an eligible location can be secured. The instruments to be used on the line are the Van Choate patent.

### A SAVAGE BULL.

As a little son of Water Bath, Esq., of Trumbull, about 8 or 9 years of age, was driving home the cattle from pasture on Wednesday evening last, he being mounted on a bare mare belonging to Mr. Beebe, a three-year-old bull in the herd, taking a dislike to the appearance of the mare, ran wildly at her, plunging his horns into her abdomen, throwing mare and boy to one side of the road. The mare raising herself up, her bowels protruding from the wound, ran a few steps and fell dead. The boy, as might be supposed, was considerably alarmed, but sustained no injuries.

### TWENTY YEARS AGO.

#### CHOKED TO DEATH.

Arthur J. Moss, of 17 Wordin avenue, a carpenter in the employ of Henry M. Nettleton, died from suffocation at the corner of Park and Fairfield avenues at 9:30 this forenoon. The cause was the lodging of a piece of beef in this throat above the larynx, which choked him to death.

Mr. Moss, with Thomas Flannigan, another carpenter, were out of employment temporarily. They entered a lunch room at the corner of Fairfield and Park avenues and ordered a sandwich. While eating the sandwich the crust of bread caught in his throat and before it could be extricated Moss expired. After Dr. Godfrey had made an examination he gave permission for the removal of the body. Moss was born in England but has lived in this country for the past 15 years or more.

#### PEOPLE AND THEIR DOINGS.

P. J. Cooney, one of the clerks at R. Whitting's, is taking his annual vacation. He is visiting well-known pleasure resorts.

Mrs. John Dowling has gone to the Catskills where she will remain with her daughter, Mrs. Palmer, until September.

Willie Kenney of Lexington avenue fell from a wagon in front of his home yesterday and broke his right arm in two places.

Miss Kittie O'Neill of Madison avenue, and Miss Jennie Hagerty, of George street, accompanied by their aunt, will start Thursday for a two weeks' visit to Hartford and Springfield.

**MCGOVERN-SWEENEY.**  
At Sacred Heart church yesterday

morning, Bernard McGovern of Bristol, Miss Mary Sweeney, of the city, were married by Rev. Father O'Brien. After the ceremony there was a wedding breakfast at the home of the bride's parents on Colorado avenue.

#### CITY ATTORNEY TOOMEY'S GUESTS.

The members of Sams Uncas, accompanied by the "No. Harmony" band visited the home of Mr. and Mrs. J. D. Toomey, Jr., on Washington avenue last evening. The band played, as it only can, the classical compositions peculiar to its repertoire, and the very enjoyable evening spent. The guests who numbered about 30, were received by Mrs. Toomey, assisted by her sisters, the Misses Boland, and Miss Norris of Brooklyn, and Miss Donahue of Jamaica. After the band had played all the airs it knew, and several it didn't know, Finton Kelley declared the evening's festivities opened, in a speech was scintillated with witty allusions. In behalf of the little men in the party he said he had a grievance against the city; the sidewalks were built too near them. It was at that moment when the party sat down to tempting repast. Music, singing, stories and "short talks" comprised the programme. By a unanimous vote Ben Miller and Harry Reilly were elected members of the camp.

#### RYAN'S TEAM VICTORIOUS.

After an interesting contest Fred Ryan's team defeated Ed Scully's team in a game of water polo at Pleasant Beach yesterday. The score was 3 goals to 1. Ryan's team composed: Lew Carter, Walter Smith, Otto Borek, William Dobbs and Ed Ryan.

Scully's team: Charles Flaherty, N. Schwartz, N. Reardon, M. Haley and Ed. Scully. Eddie Menard was referee.

#### DOCTORS' SUMMER OUTING.

The Bridgeport Medical Society held their annual summer outing at Kowling's hotel on the Milford side of Washington Bridge yesterday afternoon and two dozen sat down to the shore dinner provided. Those present were: Drs. Wright, Fitzgerald, Lockhart, Gold, Wordin, Rice, Day, Topping, Miles, Cowell, Ford, Godfrey, Tuttle Gray, Lynch, White, Warner, DeWolf, Egan, Wilcox, Osborn, Cogswell of Stratford and Day of Westport. There were a few invited guests, including Commodore Terry and Weston Kachum. The party returned home in trolley cars and Willie Terry's pretty naphtha launch.

#### FAIRFIELD COUNTY NEWS.

**Burglary in Brookfield.**  
Last Friday morning the home of John Sargent of Brookfield, was entered and a pocketbook containing about \$40 was stolen from a bureau. The house was entered and the money stolen within the space of 20 minutes, the time it took Mrs. Sargent to go to the house of a neighbor and return.

#### New Corporation.

The Fairfield County Farm Bureau of Norwalk has filed articles of association with the secretary of the state. The purpose of incorporation is to "acquire and disseminate information regarding modern agricultural activities." The stock is owned by H. Allen, J. A. Sherwood, G. A. Diew, William M. Ford and J. C. Jackson.

#### Held Up and Robbed.

Five Italians employed in the Gilbert & Bennett Manufacturing Co. of Georgetown, were held up early Sunday morning by three of their countrymen while on their way home. They were relieved of their week's wages and one of them had \$50 besides his wages which was also taken. The robbery occurred between the Georgetown and Branchville road crossings. While two of the robbers searched their victims' pockets the other stood on the bank nearby, aiming a shotgun at them.

#### Forced Off Embankment.

Suffering from a fracture at the base of the skull, three-year-old Marie Von der Lin, of Brooklyn, is in a very dangerous condition at the Norwalk hospital as the result of being thrown from the sidecar of a motorcycle at Westport, Tuesday afternoon, when the machine, which her father, L. J. Von der Lin, was driving and in which her mother and brother were also riding, was forced off the pavement and rolling down an embankment, crashed into a tree as the big limousine of O. G. Jennings of Greens Farms drove by. Henry Lockwood, his chauffeur, whisked by the smaller car. The little girl's mother is also at the hospital, suffering from lacerations of the right leg, abrasions of the face and an injury to her left eye. Lockwood, charged with reckless driving, was arrested and released on bonds of \$5,000.

Colonel R. Henry Owens, prominent turfman throughout the country, died at Lexington, Ky. He was 73 years old.

#### A Habit Dyspeptics Should Cultivate

Physicians and specialists in the treatment of stomach troubles state that they would be called upon to treat very few cases of chronic dyspepsia, ulcerated stomach and gastritis, if only those who are subject to even slight attacks of indigestion would make a practice of taking a teaspoonful of pure bisulphate of magnesia in a little water after every meal, because this would neutralize the excessive acid in the stomach, which is invariably the underlying cause of these troubles. The remarkable antacid and food corrective properties of this pure bisulphate have long been recognized by the medical profession, and the preparation is, of course, carried by all high-class druggists, but to avoid confusion with the acetates, citrates, sulphates, and similar unsuitable forms of magnesia, it is important that the bisulphate and magnesia, readers should always ask Hindle's drug store or any druggist very distinctly for bisulphate of magnesia, this is the form in use at the great military hospitals in Europe and its wonderful efficacy has called forth the praise of many eminent physicians and nurses.—Adv.

#### LITCHFIELD COUNTY NEWS.

**Most of Them Recovering.**  
Most of the patients made ill at the Hawley-Pratt wedding at Tolland Saturday when they were stricken with ptomaine poisoning after eating chicken salad, are recovering.

For discharging a rifle while standing behind the firing line at the East Haven range Friday, Private Perigaux of Company M, Torrington, was court-martialed. When Perigaux discharged his rifle he was standing directly in back of a man who was firing on the 300-yard range. The bullet whizzed past the man on the firing line and buried itself in the earth embankment. During his trial he pleaded that it was due to an accident entirely, and that he "didn't know the gun was loaded." Major Beebe severely reprimanded him for his carelessness and released him.

#### SULTAN OF JOLO.

Few know that a man who is an acknowledged subject of the United States government has the power—theoretically—of declaring a war which would involve Great Britain in a great Asiatic struggle, yet such is the case. The Sultan of Jolo, who owes allegiance to Uncle Sam as a result of the American conquest of the Philippines, if he had the power which his title and rank indicate, could proclaim a "Jihad" or holy war that would add millions of Mohammedan Malays to the fold of the Allies. However, the Sultan has wisely refrained from declaring such a conflict, and, even if he should do so, he would probably be unable to rally more than a few hundred men to his standard. Yet in the tables of precedence at Mecca the Mohammedan ruler who ranks next to the Sultan of Turkey as the greatest power among the followers of the Prophet is this same Sultan of Jolo. Theoretically he is the chieftain and appointed leader of the Moslem Malays of Java, Sumatra, Siam, Johore, Malacca, Penang, Singapore, Borneo and many other islands, and when he made his pilgrimage to Mecca this rank was renewed and given the sanction of the spiritual heads of the Mohammedan religion. The piratical ancestors of the Sultan, with sword and flame, spread the faith of Mohammed throughout Malaysia, and gained for themselves a standing among the potentates of Islam second only to that of the Turkish ruler. "The conquest of the Moros of the Philippines by Uncle Sam reduced the Sultan to a position in which the present "throne honored" ruler has less power than a corner policeman. The German war of a "holy war" that would make it necessary for Great Britain to send large forces to the Far East was thus in some measure forestalled by the United States.

The steamer Caracas arrived in New York with Captain William Nelson and seven members of the crew of the schooner Sallie C. Marvill, wrecked off the Island of Bonaire, Dutch West Indies.

While trying to imitate Charlie Chaplin in Battery Park, New York, corner Fifth and West streets, a Finnish sailor, bumped into Miss Angelina Taffe, aged 18, who knocked him down and had him arrested. He was discharged.
